 Contract Holder

### Highlights

- \$8 Billion value milestone passed at 24 months since inception
- Issued over 200 task orders for 38 different agencies to 44 separate industry partners
- Averaging 3+ bids for every RFP solicitation
- Seen approximately 4 times the growth of sales since 5/1/2010 (from \$1.6B in 2010 to \$6.3B in 2011 alone)
- Online training now available through Alliant website
- Aggressive 50% Small Business subcontracting goal

### Key Features

- Provides a streamlined and proven acquisition process
- Supports fixed price, time and materials and cost tasks
- \$50 billion contract ceiling
- Delivers improved service and reduced fees (access fee is .75% with capped fixed amounts)
- Aligned with Federal Enterprise Architecture (FEA) and DoD Enterprise Architecture framework (DoDEA)
- Offers two acquisition methods: GSA-managed and customer-managed
- Allows for access to small businesses on a task order basis

## The Challenge – Finding the Right Sized IT Provider

As information technology (IT) evolves and demands for IT services increase, the challenge of finding the right IT provider to meet program needs becomes even more critical for government agencies. There are risk, cost, and performance considerations to evaluate to determine the best fit. The right sized solutions provider should be forward thinking and deliver insight and advice on how to best incorporate existing and innovative new technologies to meet the mission.

## The Solution – KTTS, The Right IT Provider

KTTS partners with all segments of the federal community to deliver innovative and effective solutions. Our approach combines agility and customer focus with the reach back and resources of a global company. We provide the optimal mix of proven past performance to mitigate risk, IT competencies to deliver successfully, and access to contracts to reduce costs to meet the most demanding IT needs. KTTS is the right sized solutions provider to deliver IT solutions to the government because of our:

### Customers

Long standing customer relationships with a proven track record of performance for DoD, civilian and intelligence agencies including the Army, Air Force, Navy, DHS, State Department and many more.

### Competencies

- Network operations
- Cybersecurity
- Cloud Security
- Workforce performance
- Training and simulation
- Safety, security and surveillance
- Advanced engineering

### Contracts

Access to streamlined procurement vehicles such as Alliant.

## The KTTS Advantage – Responsiveness, Resources, and Results

KTTS is strategically and functionally aligned to offer a full range of IT solutions through Alliant. We offer several advantages for government customers:

- **Proven experience delivering quality and innovative IT solutions** in all Alliant component areas including application services, IT management services, infrastructure, and ancillary services.
- **Worldwide presence with skilled resources** to deliver on task orders. KTTS has a global presence with over 4,000 employees located in 54 offices. Our industry partnerships with large and small contractors enable us to deliver on the most critical requirements. Our employees, as well as our partners, have the necessary top secret facility clearances and can provide best value IT solutions to federal agencies globally.
- **Dedicated program leadership and support** through our Alliant Program Director and Program Management Office (PMO) that provide contracting assistance for our partner and government contracting needs to ensure the delivery of successful programs.
- **Strong focus on partnering with the small business community.** KTTS bolsters the expertise and skills of small businesses to deliver innovative and effective solutions. We meet or exceed contract requirements and support Alliant's 50% small business subcontracting goal by working closely with small business partners.
- **Committed to promoting the benefits of Alliant** with marketing and business development resources to ensure government customers are aware of the most cost-effective and convenient method of procuring IT solutions.
